Dear Director Kelley,

It has now been more than two months since my March 19 Freedom of Information Act request for documents regarding the F.B.I. "Rabble Rouser Index."

I appreciated your note of March 27 and the briefing Bob Franck gave me April 12. But, as I informed Bob by letter April 15, I was not waiving whatever right I had to see the documents themselves. I suggested what I thought was a reasonable procedure for handling the matter.

It may be that my letter got lost in the shuffle. I understand that Bob has been reassigned, which may have slowed things down. But if I am to proceed in the matter as I intend to do, I must have a formal reply to my March 19 request.

I would be grateful.

Best wishes.

Rabble Rouser Index

Re Legal Counsel memorandum to Mr. Miller dated 5/30/74 (attached). In line with recommendations set forth in this memorandum and approved by the Director, Carl Stern inspected the 4 documents relating to the Rabble Rouser Index in the presence of Quinn of my office and Assistant Director Mintz. u

Following their review, Mr. Stern indicated that the information contained therein was consistent with information he had been previously furnished in prior contact with my office and Mr. Mintz. He advised that while he would have to touch base with his immediate superior, he felt that his need for information in connection with this inquiry was completely satisfied. u

It should be here noted that Mr. Stern made no inquiry whatever regarding the material deleted from these 4 documents. u

BACKGROUND:

By letter to the Director dated 3-19-74, Carl L. Stern, NBC News, Washington, D. C., requested information concerning the Rabble Rouser Index. Specifically, he wanted to know "when the Index started, approximately how many persons are listed, and what criteria was used to place them on the Index, and, perhaps, subsequently, to remove them from the Index?"

As a result of this request, and in an attempt to answer Mr. Stern's questions and thereby avoid another law suit against the FBI, he was invited to visit FBI Headquarters where he was briefed by Messrs. Franck and Mintz (See attached R. R. Franck to Mr. Jenkins memorandum dated 4-12-74 and captioned, "Carl L. Stern, NBC News, Freedom of Information Act Matter").

Subsequently, by letter to Mr. Franck dated 4-15-74, a copy of which is attached, Mr. Stern, at the suggestion of his bureau chief, proposed that, in satisfying his obligation to seek primary sources (1) he be shown the original documents relating to the Rabble Rouser Index, although these documents would remain in the custody and control of the FBI; and, (2) if these documents merely cover the information he received in his briefing, the request be dropped; if the documents do not, he can make an informed judgment as to whether they are worth suing for.

By letter to the Director dated 5-22-74, Mr. Stern reiterated his desire to obtain the information requested in his 3-19-74 letter notwithstanding the information he was furnished in the 4-12-74 briefing.

Legal Counsel to Mr. Miller memo
Re: FOIA Request of Carl L. Stern, NBC News

CURRENT DEVELOPMENTS:

After reviewing Bufile 157-7782, it was determined that the following described documents would answer the questions posed in Mr. Stern's letter of 3-19-74 and as a result of his 4-12-74 briefing:

- (1) Page 2 of SAC Letter 67-47 dated 8-4-67, captioned, "Rabble Rouser Index (Subversive Control)." (Establishment of Rabble Rouser Index)
- (2) Page 6 of SAC Letter 67-70 dated 11-28-67 captioned, "Rabble Rouser Index." (Expansion of Rabble Rouser Index to include local agitators)
- (3) Bulet to Albany dated 3-21-68 captioned, "Agitator Index." (Changing name of Rabble Rouser Index to Agitator Index)
- (4) Page 8 of SAC Letter 71-17 dated 4-27-71 captioned, "Agitator Index." (Discontinuance of Agitator Index)

From a reading of these documents, it would appear that we could not show Mr. Stern the original documents; however, we could allow him to see deleted copies of these documents. It is also noted that Mr. Stern was advised during his briefing that, since the Rabble Rouser Index has been discontinued, we were unable to tell him how many persons were listed thereon. u

This matter was discussed with representatives of the Intelligence Division who indicated they would oppose voluntarily making these documents available to Mr. Stern, even though we maintained control and custody of same. These officials stated, however, should Mr. Stern be afforded access to these documents, that he should be treated as any other FOIA requester and copies thereof should be mailed to him. u

In reviewing Mr. Stern's request, which is merely to look at the original source documents and thereby verify statements made to him during the 4-12 meeting, it is felt that if we could invite Mr. Stern to FBI Headquarters to view these documents,

Legal Counsel to Mr. Miller memo
Re: FOIA Request of Carl L. Stern, NBC News

thereby maintaining custody and control over them, we would not be put into the position of going on record by writing to him. At the same time, we could satisfy his desire for primary source material and avoid future litigation for access to these documents. In addition, the rapport which was established with Mr. Stern during his briefing on 4-12-74 could be further nurtured and Bureau representatives who are in frequent contact with representatives of the press would have an opportunity to establish further rapport through this personal contact with him. u

RECOMMENDATIONS:

1. That the attached four documents, with deletions, pertaining to the Rabble Rouser Index be approved for inspection by Carl Stern. u

2. Upon approval of recommendation 1, a representative of the External Affairs Division telephonically contact Mr. Stern, telephone number (202) 362-4000, and invite him to FBI Headquarters to view the Rabble Rouser Index documents in accordance with his 3-19 and 4-15 letters. u

Re: Freedom of Information Act (FOIA) Request
of Carl L. Stern, NBC News

ADDENDUM BY LEGAL COUNSEL 6/4/74, JAM:mfd 

On June 4, 1974, at the Director's invitation, I discussed with him the above recommendations and the proposed deletions from four documents that might be shown to Carl Stern. The Director approved recommendations 1 and 2 above, but instructed further that if Carl Stern requests disclosure of the information deleted that we should tell him it would be possible to furnish him the deleted information if he could accept it "off the record" and agree that it would not be subject to publication. However, if Mr. Stern requests the deleted information but will not agree to an off the record discussion, then the matter of disclosing the deleted material should be represented to the Director for his approval prior to disclosure of the deleted material to Mr. Stern. 

Attached for information of the External Affairs Division are full text copies of the original documents indicating the material which was deleted from the documents attached which were prepared for disclosure to Carl Stern.

RABBLE ROUSER INDEX --

Manual of Instructions

sets forth instructions regarding the Rabble Rouser Index being maintained at the Bureau and in the field. In view of the growing problems created by local rabble rousers from the standpoint of internal security, the criteria for recommending individuals to be included in the Rabble Rouser Index is being expanded. Henceforth, the criteria for inclusion will be (1) agitators who have demonstrated by their actions and speeches that they have a propensity for fomenting disorder of a racial and/or security nature and (2) have attracted such attention, nationally or locally, as to be of significant interest with regard to the overall civil disturbance picture. u

A rabble rouser is defined as a person who tries to arouse people to violent action by appealing to their emotions, prejudices, et cetera; a demagogue. u

You will note that under prior criteria the Rabble Rouser Index served as an index only for individuals of national prominence with particular consideration given to those who travel extensively and was limited to those fomenting racial disorder. It is the intent of this expanded criteria to have within each division as well as nationwide an index of agitators of all types whose activities have a bearing on the national security. This would include, for example, u

and other extremists. *As you were previously advised, the fact that the individual is on the Security Index or the Reserve Index does not preclude his inclusion on the Rabble Rouser Index. u

Each Special Agent in Charge is instructed to submit a letter under the above caption to the Bureau within 30 days from the date of this letter setting forth the identities of the individuals residing within the field divisions who are being recommended for inclusion on the Rabble Rouser Index under the expanded criteria. In accordance with existing instructions, an original and four copies of a separate write-up should be submitted regarding each individual recommended using the sample format previously furnished to you. u

By letter to the Director dated 3-19-74 Mr. Stern requested information concerning the FBI's Rabble-Rouser Index. We responded to that letter 3-27-74 indicating that Mr. Stern would receive an additional response in the near future. It was recommended by Mr. Mintz on 3-27-74 and approved by the Director that Mr. Mintz and I speak with Stern personally and attempt to answer his questions and thereby avoid another law suit against the FBI. *u*

On 4-12-74 Mr. Stern came to my office and Mr. Mintz and I discussed the Rabble-Rouser Index with him. In particular, the memorandum dated 3-22-74 which was prepared for the assistance of Assistant Attorney General Henry Peterson entitled, "Rabble-Rouser Index," was thoroughly discussed with Mr. Stern. Mr. Stern asked if it was permissible for him to take notes to which I acquiesced. In addition to the material as contained in that memorandum, Mr. Stern also inquired as to how many people were listed on the Index. He was advised that the list was not extensive and at its outset was mainly concerned with leadership individuals who were attempting to arouse people to violent actions by their emotions and prejudices. I, of course, advised him that there could not be an exact count made because the Index had been completely destroyed as of 4-27-71. He recognized this fact but wondered if it was 5,000, 10,000 or whether I could give him a round figure. I told him both of those figures would undoubtedly be too high inasmuch as my definition of "not extensive" would certainly be somewhat less than 1,000 but that I have no way to determine the exact figure for him. *u*

Concerning the expansion of the Index on 11-28-67 as set forth in the above-mentioned memorandum wherein it was stated that "agitators who demonstrated by their actions a propensity for fomenting disorders of a racial and/or security nature..." were to be included in the Index, Mr. Stern inquired as to what we meant by "security nature." It was explained to Stern that the characterization "security" as contrasted with "racial" implied matters relating to the violent overthrow of the Government. He asked whether this might include the activities of antiwar groups and he was advised that if those activities concerned violence and efforts to overthrow the Government then it could have included individuals in such groups. *u*

Memorandum to Mr. Jenkins
Re: CARL L. STERN

Mr. Mintz pointed out to Mr. Stern that our greatest concern here is the principle of security of FBI files. The discussion of the Rabble-Rouser Index was intended to explain to him the nature of the program and the fact that it has been discontinued. Mr. Stern said that in television reporting it is very useful to be able to hold up a document to demonstrate the fact that he was able to obtain original source material for a story. It was asked of Mr. Stern whether he considered the impact such a presentation would have on the American public who up to now has been given assurance that information communicated to the FBI would be held in confidence. Stern said he recognized the problem that such a presentation would create but that the presentation of news stories is guided by other factors, including whether other stories are available. He said, however, that he would consider our concern for maintaining the privacy of FBI files in making recommendations to his editors as to whether he should proceed to pursue this story. He said that there was a 50-50 chance that he would not continue to pursue his inquiry concerning the Rabble-Rouser Index based on the results of his discussion with us today. u

At the conclusion of our discussion, which lasted approximately 1 hour and 15 minutes, Stern said that he would recontact us and advise us whether his editors would require him to further pursue this story. u

I respectfully suggest that your letter be amended by changing the first paragraph to read as follows:

"I have received your letter of March 19, 1974, and will review your request carefully. You will receive an additional response in the near future."

We inform the Department of Justice of Freedom of Information Act requests when we have either granted the request or denied the request. Your letter merely advises Stern that we will review his request.

I also recommend that Stern's request be reviewed by interested divisions and consideration be given to having a representative of the External Affairs Division speak with Stern personally and attempt to answer his questions and thereby avoid another lawsuit against the FBI. This may be possible because Stern's inquiry is limited to general questions concerning the nature of the Rabble Rouser Index. He does not ask for names or investigative techniques.

SURVEY, COUNTERINTELLIGENCE
PROGRAMS, PER REQUEST OF
ATTORNEY GENERAL WILLIAM SANBEE

Attached are explanations of the "Rabble Rouser Index" and "Key Activists Program." u

A committee under the direction of Assistant Attorney General Henry Petersen and comprised of Departmental and Bureau personnel has been established to conduct a survey of the Bureau's counterintelligence programs at the request of the Attorney General.

On 3/18/74 Departmental attorney Phillip White, Criminal Division, a member of the committee, telephonically contacted SA Edmund J. Pistey. White stated that he was calling at the request of Mr. Petersen. According to White, Petersen and members of his staff were reviewing various materials relating to the counterintelligence programs and had come across the terms "Rabble Rouser Index" and "Key Activists Program." White stated that Mr. Petersen desired an explanation of these terms so that he might be able to ultimately make a more meaningful report of his findings to the Attorney General. u

The attached explanations are intended to comply with Mr. Petersen's request. u

RABBLE ROUSER INDEX

In the Spring and Summer of 1967, racial tensions which had been festering since the early 1960s reached a climax in the United States. Within a period of approximately six weeks, major riots which were racially motivated occurred in Tampa, Florida; Cincinnati, Ohio; Atlanta, Georgia; Newark, New Jersey; and Detroit, Michigan. u

These events had a profound effect on the nation. On July 29, 1967, President Johnson issued Executive Order 11365 establishing the National Advisory Commission on Civil Disorders. Its mission was to study the riots, determine what had happened, why they had happened, and what could be done to prevent their occurrence in the future. The executive order specifically directed the FBI to provide investigative information and assistance to the Commission. In his address to the nation announcing the establishment of the Commission, the President stated the Commission would have access to all FBI data on the riots. He further instructed the FBI to continue to exercise its full authority to investigate the riots and to search for evidence of conspiracy. u

The question of conspiracy or organized activity in the riots was important. Was there any planning or organization in any of the riots were issues all concerned with the investigation of the riots sought to resolve. As a matter of fact, on September 14, 1967, then Attorney General Ramsey Clark reiterated the President's earlier order by specifically directing the FBI to investigate the conspiratorial aspects of the riots and among other things to be in a position to determine the whereabouts of persons who might be involved in instigating riot activity in violation of Federal law. u

It had been the FBI's finding that there certainly existed in the nation militant individuals who encouraged violence, stirred up emotions and otherwise created the atmosphere within which disorders erupted. On August 7, 1967, FBI Director Hoover testified to these findings before the President's Commission. u

During the testimony, former Mayor of New York City John V. Lindsay, Vice Chairman of the Commission, specifically asked the Director if the FBI could total up and fully identify the number of individuals who were capable of

instigating civil disorders. Lindsay stated with such information the Commission could realize what the hard core amounted to. Mr. Hoover responded the compilation of such information was possible. u

In this climate, faced with the problem of how we could better fulfill our investigative responsibilities regarding these riots, serve the President's Commission, and anticipating illegal riot-related activities fully within our jurisdiction, the Director ordered the Bureau to compile an index of individuals in a position to instigate civil disorders. The index became known as the Rabble Rouser Index and was formally established August 4, 1967. u

↓
A rabble rouser within the meaning of the index was defined as a person who attempted to arouse people to violent action by appealing to their emotions or prejudices. One who advocated and endeavored to influence others to participate in violence. It was to include those who by their actions demonstrated a propensity to foment racial disorder. Special consideration was to be given to including individuals who traveled extensively. Originally, only individuals of national prominence were included. u

The field offices recommended individuals for inclusion on the index. Ultimate approval for listing was at FBI Headquarters level. u

In the practical area of determining and defining an individual's propensity for fomenting racial disorder, the emphasis was on action and real potential for stirring up violence. Hellow-voiced advocacy in and of itself was never considered sufficient. There had to be a past history of successful agitation, personal involvement in acts of violence, affiliation with an organization with a violence-bent philosophy and other such factors. u

The type of activity sought was that such as occurred

FOIA(b) (7) - (C)

The index contained names, identifying data and background information on those considered rabble rousers. The master index was maintained at FBI Headquarters and consisted of a card-type index bearing identifying data of all individuals qualifying under Bureau criteria. Each field office maintained a listing of individuals qualifying as rabble rousers in that particular territory. u

AR *Case*

The index was maintained for investigatory purposes. It enabled the FBI to more efficiently meet its investigative duties within the field of civil disorders by identifying and keeping track of those individuals who might travel from area to area to incite disturbances. u

On November 24, 1967, the field was ordered to expand the index so as to include 1) agitators who demonstrated by their actions a propensity for fomenting disorders of a racial and/or security nature, and 2) attracted such attention nationally or locally as to be of significant interest with regard to the overall civil disturbance picture. This new criteria thus included individuals local in nature as well as those with a potential for fomenting civil disorders based on an espousing of subversive-type ideals. u

On March 21, 1968, the designation "Habble Rouser Index" was dropped and the index became known as the Agitator Index. This change was made because as a result of the expansion of the index it was felt the term "Agitator Index" was a more accurate description. u

The Agitator Index continued in operation until April 27, 1971, when Headquarters advised the field offices to discontinue it. This was done because the tenor of the times had changed making the index unnecessary in our investigations. u

Upon its termination, all cards maintained in the master index and by the various field offices which identified individuals on the index were destroyed. u

KEY ACTIVISTS PROGRAM

The Key Activists Program arose during the FBI's investigation of individuals involved in the New Left movement. u

During late 1967, the nation was confronted with the threat of the New Left manifesting itself in the form of civil disobedience, including campus unrest. We determined highly mobile leaders existed within this movement who traveled extensively throughout the country advocating civil disobedience and unlawful activity. It appeared to the Bureau that the activities of these leaders constituted possible violations of such statutes as Title 18, Sections 2383 (Rebellion or Insurrection), 2384 (Seditious Conspiracy), and 2385 (Advocating the Overthrow of the Government). However, it was also apparent that more concentrated effort was necessary to follow the activities of these individuals to insure all potential for developing prosecutable violations was exhausted. u

To insure this concentration, and in anticipation of the passage of pending Anti-Riot legislation (Title 18, Section 245 (b)(3); Chapter 103 (Sections 2101-2103) and Chapter 12 (Sections 231-233)) the Director ordered the Key Activists Program be instituted. u

A key activist was defined as a leader or policy maker for the New Left movement. The individuals most vocal and active in denouncing the United States who, most importantly, called for acts of civil disobedience and other forms of unlawful and disruptive activities. Emphasis was placed on their mobility and tendency for extensive travel. u

The objective of the Key Activists Program was to intensify investigations of key New Left personnel to insure that complete and detailed information be developed regarding their day-to-day activities and future plans for unlawful and disruptive activities directed against the Government. u

The program was instituted and maintained for purely investigatory purposes; to insure the activities of these activists were being closely followed in order that violations of the Federal law could be detected. In general terms, the program guaranteed these critical cases were receiving intensive investigation in the field and close supervision by the Headquarters staff. u

Recommendations of individuals as key activists were forwarded to FBI Headquarters by the field. As a rule of thumb, an individual had to possess a real potential for dangerous activity to be approved as a key activist. Mere statements critical of the United States, our form of government, or Government policy were insufficient. The potential for dangerous or violent activity had to exist in the form of past involvement in such activity or association with individuals or an organization involved in such activity or advocating it. u

The approval of individuals as key activists was carefully considered. At no time were there more than 75 individuals investigated as approved key activists. u

In January, 1972, the names and background data of leaders in the New Left movement were furnished to the Department at its request for consideration in determining possible grand jury action. These individuals were key activists and were being investigated under the Key Activists Program. u

The Key Activists Program continues to the present; however, due to the diffusing of the New Left movement, in a much reduced manner. u

Dear Director Kelley:

Over the past several days your Public Information staff (essentially George Quinn) nicely but firmly declined to answer my query, what is the FBI Rabble-Rouser Index? u

It was understood when I asked my question that I was NOT seeking access to any investigative file. I was NOT seeking the names of anyone listed in the Index or those who compiled the Index. Yet last Friday, I was informed that the subject matter was exempt from public discussion by the Bureau "as an investigative file." u

That is a position which stands both law and logic on its head. The right of us all to know what programs our government is operating is beyond challenge. Nor are responses to reasonable questions likely to jeopardize any legitimate interest of the Bureau; the existence of such a list is well-known to genuine subversives; the Bureau HAS acknowledged its existence. What are being withheld are those details that could be used for a truly open, yet responsible, review of the policy and management of the Index. u

What I wish to know is when the Index operated, approximately how many persons are listed, and what criteria are used to place them on the Index, and, perhaps, subsequently, to remove them from the Index? I have no objection to having all names and descriptions of investigative techniques removed from such documents. u

I know of your sincere interest in making the FBI a more open, accountable organization. And I appreciate your many past kindnesses. Nonetheless, please consider this a formal Freedom of Information Act request which I will pursue vigorously. u

You will recall in my memorandum to you of 3-19-74 captioned COINTELPRO, Carl Stern Suit, it was pointed out that Carl Stern contacted my office last week to indicate he was interested in receiving a thumbnail sketch of the Rabble-Rouser Index. Following discussion with the Intelligence Division, Stern was recontacted on 3-15-74 and advised that he should submit his request in writing for access to such data under the provisions of the Freedom of Information Act. It was also pointed out to him that if such a request was made, we felt we would be justified in denying him access since it was believed this information would come within Exemption 7 of the Act since it was contained in investigatory files compiled for law enforcement purposes. *u*

At 8:35 a.m. this date, Jack Hushen, Director of Public Information in the Department, telephonically contacted me to advise that at the Attorney General's conference last week Carl Stern brought up the matter of the Rabble-Rouser Index and the Attorney General advised that he had no information concerning it. Hushen stated that at 9:30 this morning the Attorney General will again have his weekly conference and requested that the FBI advise how the Attorney General should respond should the Rabble-Rouser Index matter come up again from Carl Stern or any other reporter. *u*

After consulting with Mr. Miller, it was decided that Hushen be furnished the following:

"A news reporter contacted the FBI earlier this month concerning the nature of the Rabble-Rouser Index. It was suggested to him that his request be furnished in writing under the provisions of the Freedom of Information Act." *u*

Since stops on Category I, Extremist, ADEX subjects are no longer placed with the on-line computer operation of NCIC, and Bureau Stop Index where such stops are now placed has recently been made a separate file in the Voucher-Statistical Section, the terminology as set forth above would be more accurate. Current practice or rule (Include manual citation as well as facts) Item 12 currently indicates
Stop Notice has been placed with NCIC.

Advantages of suggestion and annual savings (include basis for estimate)

Stops on Category I, Extremist, ADEX subjects are no longer placed with the on line computer operation of NCIC. The Bureau Stop Index with which such stops are placed has recently been made a separate entity from NCIC. The suggested terminology would be more accurate. No savings are involved.

SUGGESTION

That Item #7 of form FD-305 (copy attached) be revised to read:
"Subject previously interviewed (dates) _____. Subject was
not interviewed (reinterviewed) because (state reason)." u

Ag: Index - General

Current practice or rule (Include manual citation as well as facts)

Item #7 currently requests reason be set forth as to why subject
was not reinterviewed. u

Advantages of suggestion and annual savings (include basis for estimate)

By the insertion of word "interviewed" in above item, field office
will immediately recognize that an evaluation is necessary for not
conducting initial interview as well as its reason for not rein-
terviewing subject. The suggested terminology would more accurately
portray Bureau's desires concerning interview evaluations as
relating to security investigations of individuals. No known
savings are involved. u

Disadvantages of suggestion

None known.

Attached suggestion proposes that Item #7 of form FD-305 be revised to read: "Subject previously interviewed (dates) _____. Subject was not interviewed (reinterviewed) because (state reason)." Item #7 currently requests that field furnish reason for not reinterviewing a particular security subject. No provision is allowed for field to furnish an evaluation as to reason initial interview not conducted. *u*

COMMENTS OF DOMESTIC INTELLIGENCE DIVISION:

The suggested terminology for Item #7 would more accurately convey Bureau's desires concerning interview evaluations; therefore, its adoption is recommended. *u*

SUGGESTION: Suggests Form FD-305 (Last Cover Page for ADEX Report) be revised according to the attached sample. Sample of present FD-305 also attached. Item 1. would be changed to include "Category" tabbed on subject's ADEX card. Item 9. would be changed to indicate the case should remain in the same Category of ADEX, rather than to indicate only that case should remain in ADEX. Item 10. would be deleted and new wording would be used to indicate that case should be tabbed in another Category of ADEX, with space for the reason. When used, if Item 10. were marked, Item 3. should also be marked. *u*

ADVANTAGES: The suggester states the revised form would retain all of the essential elements of present form and would provide additional flexibility in use of the form. In current practice, the reason given in Item 10. is generally a repeat of that given in Item 9., and use of the proposed form would eliminate this repetition. The proposed Item 10. would provide a place to explain the transfer of a subject from one ADEX Category to another thereby eliminating a paragraph in the cover pages. The proposed form would save dictation and transcription time on reports of all ADEX subjects. *u*

OBSERVATIONS: Administrative Division had no comments regarding the proposed changes since form is not processed in the Voucher-Statistical Section. It was noted that Item 12. should be revised to read: Subject is Extremist in Category I of ADEX and Stop Notice has been placed in the STOP INDEX, " since this index is no longer a part of NCIC. Training Division notes action is already being taken due to a recent suggestion on this matter. *u*

Domestic Intelligence Division advised the revision of Items 1. and 9. as proposed is acceptable and desirable as they call for more precise data, namely, the Category in which subject is tabbed. Revision of Item 10. is also acceptable since it is repetitious of Item 9. Suggester mentioned that if Item 10. is marked then Item 3. will also be marked. Item 3. indicates changes on the ADEX card are necessary and Form FD-122 (Recommendation for Preparation of, or Change in, ADEX Card) submitted to Bureau. Consequently, Form FD-122 will continue to be form actually effecting the changes on the ADEX Cards and the approval of the revised form will not affect procedures in effect in this regard. *u*

SUGGESTION It is suggested that ~~Form~~ FD-305 be revised. A copy of the proposed revision is attached to each copy of this form, with the following proposed changes marked in red:

Item 1: Changed to include Category tabbed on Subject's ADEX card.

Item 9: Changed to indicate that case should remain in the same Category of ADEX, rather than to indicate only that case should remain in ADEX.

Item 10: Deleted. Proposed new item 10 would indicate that case should be tabbed in another Category of ADEX, with space for reason. In use, if item 10 were marked, item 3 should also be marked.

Agitator Index - pen.

Current practice or rule (Include manual citation as well as facts)

Form FD-305 with revision date of 11/22/71 is being used.

Advantages of suggestion and annual savings (include basis for estimate) This proposed form retains all essential elements of the current form and provides additional flexibility in use of the form. In current practice, the reason given in item 10 is generally a repeat of that given in item 9, and use of the proposed form would eliminate this repetition. The proposed item 10 would provide a place to explain the transfer of a Subject from one ADEX Category to another, thereby eliminating a paragraph in the cover pages.

It is impossible for this agent to calculate annual savings due to inavailability of statistics regarding number of ADEX Subjects and frequency of change of Category; however, use of this form would save considerably in dictation and transcription time on all ADEX reports, in particular, those in which a Subject is transferred to another Category.

Disadvantages of suggestion

There are no known disadvantages of using this proposed revision of form FD-305.

NOTE Continued:

Domestic Intelligence Division recommended adoption since it noted these changes would eliminate additional correspondence from Bureau to field pointing out these categories and additionally requesting new office of origin to submit a new FD-432 (Black Nationalist Photograph Album). This will save Agent and clerical time. Training Division has no objection to this revision. On approval, this letter will serve as authority for the Forms Management Desk, Training Division, to take appropriate action. u

ADDENDUM: DOMESTIC INTELLIGENCE DIVISION GTT:lmb 4/19/71

Attached suggests that Form FD-128 be changed to add the following blocks.

- ✓ 1) Subject is designated a Key Black Extremist.
- ✓ 2) Subject is designated a Key Activist.
- ✓ 3) Subject is included in the Black Nationalist Photograph Album (BNPA). The new office of origin should submit a new complete FD-432 showing the new address and office of origin of subject.

COMMENTS OF DOMESTIC INTELLIGENCE DIVISION

This Division recommends above suggestions be adopted and FD-128s be changed to add three categories listed above. The addition of number one above designates the subject as a Key Black Extremist, a vital program in racial matters investigations, and number two points out subject is a Key Activist. The third addition will alert the new office of origin to the fact subject is included in the Black Nationalist Photograph Album. The above suggestions will eliminate additional correspondence from the Bureau to the field pointing out these categories and additionally requesting the new office of origin to submit a new FD-432. This will amount to saving of a considerable amount of Agent and clerical time. u

To recommend present supply of forms FD-397 and FD-403 be destroyed and future reproductions of FD-128 and FD-305 be amended since the Agitator Index (AI) has been discontinued.

The Director on 4/21/71 authorized discontinuance of AI. Forms FD-397 and FD-403 were utilized only in connection with the AI. Since they are of no current value with discontinuance of AI, they should be destroyed.

Form FD-128 is utilized to designate new office of origin in security or racial investigations. Form presently includes three references to AI, shown on attached copy of FD-128 in black ink brackets. Form FD-305 was utilized as last page for cover pages for reports concerning Security Index and AI subjects. Since AI has been discontinued, the five references to AI or AI cards and single reference to FD-397, shown on attached copy of FD-305 in black brackets, will no longer be required. Present supply of these forms should be exhausted; however, when reprinting is necessary, deletions to the above should be made.

To recommend the Agitator Index (AI) be abolished.

The AI was established 8/3/67 as a ready reference to individuals who had demonstrated a propensity for fomenting disorder of a racial and/or security nature. When established, agitators were advocating participation in violence. Their activities at that time did not qualify them for inclusion on Security Index (SI) and the AI was a confidential administrative device to follow their activities. Since that time, the tactics of many individuals formerly classified as agitators have changed and agitators have blossomed into full-fledged extremists who are involved in a variety of terrorist and revolutionary activities. This change in activities of individual extremists has resulted in those who are capable of causing violence being included on SI. Thus, they have been deleted from the AI. *Ch*

In this regard, it is noted during past six months the number of individuals included on AI has decreased from 1191 to 666. This steady decline was brought about as result of annual evaluation of AI subjects to determine if they should be retained on AI and as a result of many AI subjects being included on SI due to involvement in extremist activities. *Ch*

Re: Agitator Index
157-7782

Comprehensive reports have been submitted concerning each AI subject and dissemination has been made to the Department and Secret Service. Quality informants have been developed who report on the activities of AI subjects.

AI is no longer the necessary administrative tool it once was and it appears it has served its purpose. We certainly will not suffer from its discontinuance as extremist subjects involved are adequately followed through SI and those individuals not warranting inclusion on SI are afforded investigative attention commensurate with nature of their activities as such comes to our attention. For these reasons and to streamline our operations, it is recommended the AI be discontinued. The field will be required, if this recommendation is approved, to specifically review each case file pertaining to AI subjects and to submit recommendations to the Bureau concerning any subjects whose current activities would qualify them for inclusion on SI. u

The Department has not been advised as to the establishment of the AI. u

ACTION:

If approved, the attached letter will be sent to all Special Agents in Charge and necessary changes will be made in the Manual of Instructions and FBI Handbook for Special Agents. u

 MR. TOLSON:

In a nutshell, we
 are abolishing the agitator
 index (racial militants.)
 Individuals on the agitator index
 who qualify as extremists capable of causing
 violence, will be moved over and included
 in the security index.

I think this is highly desirable
 inasmuch as we will now only have one
 index, and I recommend approval.

those individuals who are also included on the Security Index (SI). ^u

Field racial supervisors who attended a specialized racial conference at Bureau on 10/22-23/70 recommended AI be abolished since activities of so many AI subjects also qualified them for inclusion on SI. AI is a ready reference to individuals who have demonstrated a propensity for fomenting disorder of racial and/or security nature. AI is a valuable and necessary administrative tool and it should not be discontinued.

Since inception of AI, the extremist and revolutionary activities of many agitators have also qualified them for SI and thus they are included on AI and SI. Listing of individuals in either the SI or AI is adequate cataloging from administrative and investigative standpoint at the Bureau and in the field. To streamline our operations, it is recommended those individuals who are also included on SI be deleted from AI. ^u

The Department has not been advised as to the establishment of the AI. ^u

Dear Mrs. Williams:

I have received your suggestion that Forms FD-122 and FD-397 be combined into one format. As a matter of possible interest to you, similar ideas have been considered in the past and not adopted since these forms were prepared for specific purposes and it was decided confusion would result from the proposed action.

The interest you displayed in giving me the benefit of your thoughts on this subject is appreciated.

NOTE Continued:

these matters on part-time basis in determining which items are needed for particular program he is working with at the time. Each form was designed for specific purpose and combining them would result in confusion on part of field. These forms are prepared separately and maintained separately and it would not be feasible to handle as one format. In addition, Domestic Intelligence Division has advised at this time that Voucher-Statistical Section makes a printout from the Security Index information and to add items on form which pertain to another program would cause this section more work. With regard to the addition of a ballot box for indicating Form FD-366 has been submitted, it is felt since the forms are not being combined that the cost for placing this item on both of the present formats is not warranted. Manual of Instructions contains rules regarding use of the FD-366 in three different locations so this should be sufficient for personnel working such cases. Training Division recommends current idea not be approved. u

SUGGESTION

Combine Forms FD-397 and FD-122, making one form instead of two. u

Current practice or rule (Include manual citation as well as facts) If subject is on Agitator Index, FD-397 is prepared; if on Security Index, FD-122 is prepared; if Secret Service needs to be advised of change FD-366 is completed. u

Advantages of suggestion and annual savings (include basis for estimate)

There are two categories of individuals requiring that more-or-less the same type information be submitted, namely Agitator Index and Security Index subjects. FD-397 is submitted every time a subject is placed on the AI and each time a change in residence and/or employment occurs. FD-122 is submitted on SI subjects each time the above changes take place on that individual. Both of these forms show residence and employment, and both contain similar information. u

Each time a change is made in residence and/or employment, if Secret Service has been notified at any previous time, they should be advised on FD-366. Execution of this form is often overlooked, hence their (Contd)

Disadvantages of suggestion

None known.

(The use by the United States of my suggestion shall not form the basis of a further claim of any nature by me, my heirs, or assigns upon the United States. I understand that I will be considered for any justified award only if my suggestion is adopted within two years after submission.)

Advantages of suggestion and annual savings (Cont'd):

file is not kept current unless FD-366 is submitted to them. The purpose of adding a block showing that Secret Service has been notified is to remind the Agent and/or the Steno to submit this form. u

This suggestion will make it possible for one form to be used instead of the two forms now in use (FD-397, FD-122) and will insure that Secret Service is kept abreast of current changes of address and/or employment. u

Time saved in preparing proposed new form and filling in only information applicable to each type subject, will make it unnecessary to maintain stocks of two different forms in all offices and other points, thereby cutting storage by 50%, filing by 50%, eliminate 50% of the cost of printing. The new form would also assure that Secret Service was notified if necessary. u

This is to recommend the Agitator Index be continued on the basis of its usefulness in the racial field. *u*

The Agitator Index was established 8/3/67 by memorandum C. D. Brennan to Mr. W. C. Sullivan captioned "Rabble Rouser Index" as a ready reference of racial agitators and individuals who have demonstrated a propensity for fomenting racial discord. Individuals are included who have attracted such attention nationally or locally as to be of significant interest with regard to the overall civil disturbance picture. *u*

The Agitator Index is a ready reference in the field and at the Bureau since it provides personal data and a summary of agitational activity of those listed. It is of assistance in following movements of these agitators and obviates the necessity for extensive file reviews as these persons come to our attention. The Index is a cataloging procedure on IBM equipment, which has been thoroughly streamlined through the use of forms. *u*

RECOMMENDATION:

That the Agitator Index be continued. *u*

SECURITY INDEX - GENERAL
SUGGESTION 477-70 SUBMITTED BY
MRS. VIRGINIA RENTSCHLER
SPRINGFIELD OFFICE

AGITATOR INDEX

SUGGESTION: When Form FD-128 (Letter Changing Office of Origin in Security Cases) is next revised, suggests following statement be added under block captioned "Check the following applicable statements": "Dissemination made Secret Service locally re above information. Two copies appropriate LHM attached herewith for Bureau." Sample of revised format is attached to background material. If approved, suggests Manual of Instructions, Vol. III, Section 87D, item 7b, (9), (a), be revised under VI to include paragraph "Old Office of Origin is responsible for furnishing Secret Service locally with subject's new residence and business address."

CURRENT PRACTICE: The suggester notes that present instructions require the the old office of origin to advise Secret Service locally of new residence and address and also contains rules regarding movement of subjects between offices and transfers of Security Index (SI) cards; however, instructions re advising of Secret Service by old office of origin are not presently included.

ADVANTAGES: Mrs. Rentschler feels the statement on Form FD-128 would insure appropriate forms are furnished SOG by old office of origin and new office of origin would be cognizant Secret Service has been advised. Revision of manual instructions would insure appropriate submission of forms by old office of origin.

OBSERVATIONS: SAC Farrow, Springfield, felt the idea had merit as it would provide extra assurance that appropriate information concerning change of residence and employment has been furnished to Secret Service as an interested party.

Memorandum J. J. Casper to Mr. Mohr
Re: Security Index - General
Suggestion 477-70 Submitted by
Mrs. Virginia Rentschler
Springfield Office

Domestic Intelligence Division pointed out Form FD-128 is used by the office of origin to designate another office as office of origin when a SI or Reserve Index (RI) subject is moving from one jurisdiction to another. This Division was of the opinion that the responsibility for local dissemination to Secret Service when a subject moves to the jurisdiction of another office, although now set out in the Manual of Instructions, would be further clarified if it would also appear in Section 87D, item 7b, (9), (a), inasmuch as this section deals specifically with the movement of subjects from the jurisdiction of one office to that of another, and for this reason recommended adoption. The portion of the idea to include a statement on the FD-128 that the old office of origin has disseminated locally to Secret Service would be further assurance to the new office of origin that the required dissemination has been made; therefore, it was recommended this portion also be adopted.

Due to these views, Training Division has no objection to taking the proposed action.

RECOMMENDATIONS: (1) That the suggestion be adopted and the attached letter of appreciation be forwarded to the suggester. She has been thanked by prior letter.

(2) On approval, this memorandum will serve as the authority for the Forms Management Desk and the Manuals Desk, Training Division, to take appropriate action.

SUGGESTION At time of next revision of FD-128 (Transfer of Office of Origin in Security/Racial Matters), suggested following statement be added under block captioned "Check the following applicable statements": "Dissemination made Secret Service locally re above information. Two copies appropriate LHM attached herewith for Bureau". Ten copies of proposed revised form attached.

Also, if above revision adopted, suggested Manual of Instructions, Vol. III, Section 87D, item 7b, (9), (a), be revised under VI to include paragraph "Old Office of Origin is responsible for furnishing Secret Service locally with subject's new residence and business address."

Agitator Index

Current practice or rule (Include manual citation as well as facts) Current FD-128 contains no statement re submission of forms to Secret Service. Manual of Instructions, Vol. III Sec 87D, item 8a (9), Page 81a sets forth old office of origin is to advise Secret Service Locally of new residence and address* (continued below)

Advantages of suggestion and annual savings (include basis for estimate)

Placement of suggested statement on FD-128 would insure appropriate forms are furnished Bureau by old office of origin and new office of origin is cognizant Secret Service has been advised.

Revision of manual instructions would insure appropriate submission of forms by old office of origin.

*(Current practice or rule, etc.) (Cont'd)

Manual of Instructions, Vol. III, Sec 87D, item 7b, (9), (a) concerns movement of subjects between offices and transfers of security index cards; however, instructions re advising of Secret Service by old office of origin are not presently included in this section.

Disadvantages of suggestion

None. Cost would be assimilated by including above revision in next over-all revision of FD-128.

It takes very little time to check another index in a field office as compared to time and effort needed to make a new card at SOG each time a change occurs regarding an individual in that he is canceled from one index or the other. In addition, you could not always rely on information on card regarding this matter since a change could occur in a given situation before a new card could be produced and furnished appropriate offices. In many instances a Security Index Subject is also on the Agitator Index. In this way, simply by looking at either the SI card or the AI card you would immediately know that Subject is on both Indexes. u

Since file fronts are stamped "SI" for Security Index Subjects, but are not stamped to indicate Agitator Index Subjects, having appropriate notation on SI and AI cards would be most helpful as it would not necessitate a review of the files. u

NOTE: (continued)

Similar ideas have been considered previously and not approved. It is more practical to have separate forms for these three programs. By having them combined into one format, additional work would be involved on part of any Agent handling these matters on part-time basis in determining which items are needed for particular program he is working with at the time. Each form was designed for a specific purpose and is of a different color for easy recognition and combining them would result in confusion on part of field. Forms must be of a standard size. Training Division recommends current idea not be adopted. u

Suggestion 883-69 proposes Form FD-203 which is used to request investigation in Resident Agencies in Security Matter - Communist cases be amended to delete the caption, "Security Matter - C," so it would be possible to use it in Klan-type cases as well as Black Nationalist and other related cases. Designation at bottom of form for a 100- file would be deleted but words "file number" could be substituted. Form could be filled out in duplicate in pen or pencil with a copy for the file and original to Resident Agency. u

SUGGESTION: FD 154 is utilized to verify residence and employment of Security Index subjects; FD 398 and FD 403 are used similarly for Klan and hate-type organization subjects and for Agitator Index subjects. Since the purpose of the form is to provide a means suitable for verification without entailing extra typing and to have current information concerning a subject available, it is suggested that these three forms be combined on a larger, outsize, heavier colored paper which stands out in the file and can be easily located. This form should have, as at present, a place at the top for current residence and employment and add a place for position and organization. The bottom half of the form should have a space for residence and employment and date and source of verification; if photograph available; if armed and dangerous; if change should be submitted; date file reviewed and Agent's initials. u

Current practice or rule (Include manual citation as well as facts)

Three separate forms are utilized: FD 154, FD 398, FD 403.

Advantages of suggestion and annual savings (include basis for estimate)

A combined form which could be utilized in all types of security cases as known at present and which could be used in future cases in this category. By using one form, of a heavier paper which is larger than normal paper size, the current residence and employment can be easily spotted in a multi-volume or active file and also the need for current verification can be spotted. u

SUBJECT: AGITATOR INDEX
SUGGESTION 815-69 SUBMITTED BY
SA DAVID A. BRUMBLE, TAMPA OFFICE

ALL INFORMATION CONTAINED
HEREIN IS UNCLASSIFIED
DATE 4-23-80 BY SP-1 GSK/dw

SUGGESTION: That the Agitator Index (AI) of each field office be duplicated and filed at relocation site of each field office;. Bureau to prepare copies of existing AI cards for each field office and forward them for filing at relocation sites and that additions and changes, when made in the future, be done in an additional copy for filing in this file. u

CURRENT PRACTICE: The suggester states the AI is maintained at the Seat of Government and by each field office under the same secure conditions afforded the Security Index (SI); however, no provisions are made for filing at the relocation site. Manual of Instructions, Volume IV, Section 122D, items 6 and 7. u

ADVANTAGES: SA Brumble advised the AI contains identity of those individuals believed to be responsible for any type of agitation during times of public disorder or riot. It would appear consistent; therefore, for these individuals to possibly become so involved in such activity during time of crisis such as would prompt the implementation of relocation of Bureau field offices. By having index available at the relocation site at such a time, this should be of great assistance to the Bureau in handling its responsibilities in coordinating intelligence activities, specifically, insofar as civil disorders which might occur thereafter. u

DISADVANTAGES: SAC Santoiana, Tampa, noted that individuals on the AI could be equally or more important than those in the SI in time of National crisis. He, therefore, felt it would be to our advantage to include the AI under the "Detention Program" to implement the idea and he recommended adoption. u

The Domestic Intelligence Division noted that at the present time there are 909 AI cards. Consideration has been given in each instance with regard to the need for apprehension of these individuals in time of National crisis and more than 50 per cent of those on the AI have been deemed dangerous enough to come in this category and, therefore, have been added to the SI. In view of this procedure, this division believed that those on the AI who warrant being considered for apprehension will be so considered at the time of any National crisis and it recommended idea not be adopted. u

Memorandum J. J. Casper to Mr. Mohr
Re: Agitator Index
Suggestion 815-69 Submitted by
SA David A. Brumble, Tampa Office

Training Division agrees proposed procedure would involve a lot of additional work which is not warranted since the individuals are automatically placed on the Security Index for detention in case of an emergency when they are deemed to fall in this category. u

RECOMMENDATION: That the suggestion not be adopted and the attached letter be forwarded to the suggester advising him of this action. He was thanked by prior letter. u

A collection of handwritten signatures and initials. On the left is a large, stylized signature. To its right is a circular stamp containing the letters 'JF'. Further right is another signature, followed by the initials 'JSC' and 'NR' written below it. Below the first signature is a small mark that looks like a checkmark or the letter 'B'.

Dear Mr. Brumble:

Your suggestions have been received regarding a method for preparing and maintaining certain index cards and a system for clearly identifying funds paid for particular types of services rendered to the Bureau. The first proposal is being evaluated and I will let you know of the final decision in this matter. With regard to the second idea, the services of each such person are analyzed on an individual basis; therefore, it is felt the procedure described by you would not be of value to these operations. The interest which led you to submit these observations to me is indeed appreciated. u

NOTE: (continued)

Referred to the Domestic Intelligence Division, by request, and to the Administrative Division for views and recommendations. u

Suggestion 816-69 proposes letter submitted monthly to Bureau captioned, Monthly Report of Expenditures, Confidential Fund, Period Covered (Month and Year), which sets forth as last page a "Summary of Payments to Informants and Sources," be amended to show a breakdown as shown on attached sheet. Additionally, within the letter itself, that payments made to racial informants be identified as to whether they are klan or white-hate-type sources and/or black nationalist matter sources. This could be effected by showing after recording of identity of symbol number or source's identity, the word "HATE" for klan and white-hate-type group and initials "BN" for black nationalist. &

Domestic Intelligence Division advised all informant payments are analyzed on an individual basis and Bureau policy is such that informants are paid in direct proportion to value of information furnished. This holds true both for payments made under Bureau authority and SAC authority. It did not feel proposed procedure would be of value to these operations due to manner in which these matters are handled. Due to these views, Training Division recommends idea not be approved. &

Current practice or rule (Include manual citation as well as facts) AI maintained at Bureau and by each field division under same secure conditions afforded for Security Index; however, no provisions made for filing at relocation site, Volume IV, Manual of Instructions, Sections 122 D, 6 and 7. u

Advantages of suggestion and annual savings (include basis for estimate) No annual savings estimated. Letter submitted monthly to Bureau captioned, Monthly Report of Expenditures, Confidential Fund, Period Covered (Month and Year), which sets forth as the last page thereto a "Summary of Payments to Informants and Sources," be amended to show as indicated on attached sheet. Additionally, within the letter itself, that payments made to racial informants be identified as to whether they are klan or white-hate type sources and/or black nationalist matter sources. This could be affected by showing after recording of identity of symbol number or source's identity, the word HATE for klan and white-hate type group, and the initials "BN" for Black Nationalist. *ac*

(SEE ATTACHED SHEET)

Current practice or rule (Include manual citation as well as facts)

Present practice for submitting in the summary under heading of Racial; Informants and Sources, Total Moneys Paid to Sources Furnishing Information concerning White-Hate, Klan and Black Nationalist Matter. *ac*

Advantages of suggestion and annual savings (include basis for estimate)

Annual savings none. By clearly identifying funds expended for utilization of sources in klan and white-hate groups, as well as to identify moneys paid for sources on black nationalist activities, both the Bureau and field division would be in a much better position to evaluate and analyze informant expenditures. Immediate analysis could be afforded to identify if funds paid klan and white-hate type informants were consistent with current activities of such organizations and likewise would be true concerning black nationalist type investigations. *ac*

NOTE: (continued

Training Division discussed suggestion with Domestic Intelligence Division and Washington Field Office and all agree that idea should not be adopted. This form is for purpose of having a Security Index (SI) card prepared on subject or making changes on already existing card. These cards are administrative devices to compile information on SI subjects mainly with respect to residence, employment and physical description. In event of emergency requiring pick-up and detention of these subjects, however, reliance would not be placed on the cards but the file would be resorted to for review and it would contain all necessary information including the fact that the subject was armed and dangerous, had suicidal tendencies, etc. It is not believed necessary to clutter the SI card with these data. The same reasoning applies to Form 122a which performs the same functions as FD-122 with respect to the Reserve Index and FD-397, its counterpart with respect to the Agitator Index. u

SUGGESTION

It is suggested that Form FD-122 (Security Index Recommendation/Change) be revised at the next printing to include a space to be checked if the subject is known to be armed; has suicidal tendencies or is otherwise dangerous to the point where it can be expected he would attempt to inflict bodily harm to arresting Agents in time of national emergency. This notation would also appear on the Security Index (SI) cards maintained at the Bureau and the field office concerned as a "flag."^u

It is noted this suggestion could be expanded, for reference purposes, to include Forms FD-122a (Reserve Index) and FD-397 (Agitator Index).^u

(Continued on Page 2)

Current practice or rule (Include manual citation as well as facts)

No notation, as explained above, is included on either the forms noted or on the SI cards.

Advantages of suggestion and annual savings (include basis for estimate)

SI cards serve as an operational guide for the apprehension of persons deemed dangerous to the national security of the United States in the event of a national emergency. Although it is realized that most SI subjects, especially those on Priority I and II, have a general propensity for violence, it would be most beneficial to include in the SI card a "flag" cautioning the arresting Agent that subject's degree of dangerousness is compounded by the fact that he is known to carry a firearm, is mentally unstable, etc.^u

Disadvantages of suggestion

None known.

SUGGESTION

That the Agitator Index form (FD-397) be changed to more clearly indicate when a subject is being recommended for this Index, when changes are recommended for the Agitator Index card itself and when it is recommended that subject be removed from the Index. It is recommended that the following words replace those presently set forth on the form:

" ☐ Add Subject to Index ☐ Change Index Card ☐ Delete Subject." u

0 Agitator Index

Current practice or rule (Include manual citation as well as facts)

The current Agitator Index form sets forth " ☐ new subject" to indicate an individual is being recommended by the field office for (over)

Advantages of suggestion and annual savings (include basis for estimate)

The purpose of this suggestion is primarily to change the wording since the words " ☐ new subject" are confusing and could mean subject is already on the Index. The suggested terms " ☐ Change Index Card" and "Delete Subject" more clearly indicate what the field office wishes done. u

the Index, " ☐ change" to indicate the field office is recommending that the Agitator Index card be changed and " ☐ delete" to indicate the field office recommends the subject be deleted from the Index. See examples attached. u

This suggester recommends that the Agitator Index form (FD-397) be changed to more clearly indicate when a subject is being recommended by a field office for the Agitator Index, when the Agitator Index cards should be changed, and when it is recommended that a subject be removed from the Index. u

The present wording for adding a subject to the Index is "☐ New Subject" and the suggested wording is "☐ Add Subject to Index." If this suggestion is adopted, field clerical and Agent personnel will understand clearly that checking this block means adding subject to the Index whereas the old wording "☐ New Subject" could mean new subject in instant office or new case opened, etc. The other changes are to set forth on the form "☐ Change Index Card" and "☐ Delete Subject." These changes should clarify the form since the present form indicates these changes only by the words "☐ Change" and "☐ Delete." See form attached for present format and suggested form. If suggestion is adopted, change should not be made until the existing supply of forms is exhausted. u

In view of the clarification this adds to the Agitator Index form, this suggestion is recommended by Division Five. u

The Executives Conference

SECURITY INVESTIGATIONS OF INDIVIDUALS

FILE PROCESSED FOR RELEASE
IN CIVIL DISCOVERY
DATE 9-2-91
SEE BUFILE 62-117455

On February 27, 1969, the Executives Conference, consisting of Messrs. Tolson, J. P. Mohr, Beaver, Bishop, Casper, DeLoach, Callahan, Conrad, Felt, Gale, Rosen, Sullivan, Tavel and Trotter, considered the suggestion that investigations, and particularly report writing, in routine Security Matter - Communist cases throughout the field be suspended for a period of six months. This would make available a substantial number of Agents immediately and the situation could be re-evaluated after the six month period. u

Agitator Index

Following consideration, the Executives Conference unanimously approved this proposal.

The report and verification requirements regarding Security Index subjects were previously changed upon the recommendation of Mr. Tolson and approved by the Director. Reports regarding individuals in Priority I of the Security Index will henceforth be submitted on an annual basis instead of semiannually. The verification of residence and employment of individuals in Priority I will continue to be conducted every three months. The verification of residence and employment of individuals designated as Priority II and Priority III of the Security Index will henceforth be conducted on an annual basis instead of semiannually. In addition, verification of residence and employment regarding subjects on the Agitator Index will be conducted on an annual basis instead of semiannually. u

157-7782

These changes in verification and report writing in routine Security Matter - Communist cases have been incorporated into a suggested letter to all offices, which is attached. u

COMMENTS OF DOMESTIC INTELLIGENCE DIVISION

By communication dated 10/4/68, Suggestor requests permission to create a form to A) verify residence and employment of Agitator Index subjects on a quarterly basis and B.) to alert the Agents handling the case that there is a yearly communication due on the specific case.

We have recently perfected form FD-403 which was furnished the field on 9/30/68. This form calls for a verification of the residence and employment of Agitator Index subjects on a quarterly basis and covers section A of above suggestion. Section B is merely a repeat of existing Bureau rules governing the submission of reports and calls for the submission of a report letterhead memorandum or a letter, depending on the circumstances.

It is not felt that this is a necessary form. The only portion not covered by the FD-403 is usually covered by a few words on the FD-403 once a year by the Field Supervisor to the effect that a communication should be furnished the Bureau.

Reference is made to my letter dated April 2, 1968, concerning your suggestion that two forms which you devised be approved for use in connection with a particular program. Another employee submitted a similar suggestion and these suggestions, with modification, have been adopted. In recognition of the saving to be realized, it is a pleasure to advise that I have approved an incentive award for you. The check representing \$65.00, your share of the award, is enclosed. u

The resourcefulness and interest you exhibited in submitting a suggestion that will contribute to the streamlining of our operations were noteworthy. I hope that in the future the Bureau may benefit from further ideas you may have. u

FROM : J. J. Casper

SUBJECT: AGITATOR INDEX
SUGGESTION 48-69 SUBMITTED BY
SA FRANCIS X. FUST, JR.
CINCINNATI OFFICE

Handwritten: *Handwritten: FJ-403*

SUGGESTION: That a form for field-wide use be approved for the quarterly verification of the residence and employment of Agitator Index subjects. The form would be similar to that now used in connection with the verification of information regarding Security Index subjects and possibly could also be printed on pink paper to facilitate its location in file (sample format attached to background material). u

CURRENT PRACTICE: The suggester states this verification is ordered by memorandum form which is not easily flagged in file. u

ADVANTAGES: SA Fust states use of form will reduce handling in headquarters office since routing of form is self-explanatory and can be handled on tickler by clerk or secretary responsible for administration of Agitator Index matters. Form also includes section regarding "Armed and Dangerous" classification, since this type of subject is usually on the move and often considered for interview. Saving in time would amount to 2 minutes for supervisor, 8 minutes for clerk and 5 minutes for Agent each time information is needed. u

OBSERVATIONS: SAC Morgan, Cincinnati, recommended adoption.

Domestic Intelligence Division noted that a similar suggestion was made in March of 1968 and turned down because of inadequate volume of subjects on this index which at that time was approximately 300 persons. As of 7/26/68, the Agitator Index contained 570 names reflecting an increase of 270 names in a four-month period. It is logical to expect this growth will continue for an appreciable period; therefore, it was recommended this idea be adopted. Use of a form for this purpose would alleviate considerable typing and handling of these communications and result in a definite saving in clerical as well as Agent time. This division noted that Agitator Index subjects are sometimes Security Index subjects also and the FD-154 (used for Security Index) is pink. It was, therefore, recommended form for the Agitator Index be yellow which is the same

color as used for the Agitator Index cards. Attached is a modification of the format as suggested with changes which this division felt simplify the form while retaining the appropriate information. Also, attached is a breakdown of the various field offices and the number of Agitator Index subjects in each. If approved, a minimum of four times the number of Agitator Index verification forms should be furnished these offices. u

Training Division notes the former suggestion referred to by the Domestic Intelligence Division was submitted by Miss Georgia Ann Lape, Chicago Office, who submitted a format for this purpose. Based on 2 minutes of a GS-14 supervisor's time, 4 times per year for 570 subjects each, at base pay of \$8.15, a saving of \$619.40 would be realized. Based on saving of 8 minutes of a GS-3 clerk's time, 4 times a year for 570 subjects each, at base pay of \$2.21, a saving of \$671.84 would be realized. Based on 5 minutes of a GS-13 Agent's time, 4 times per year for 570 subjects each at base pay of \$6.93, a saving of \$1,316.70 would be realized making a grand total of \$2,607.94 on an annual basis. Domestic Intelligence and Training Divisions feel the time involved is as close as can be computed. By subtracting \$20 for the cost for preparation of a new form, a saving of \$2,587.94 would be realized. An incentive award of \$130 could be awarded and it is felt Miss Lape should share in this award. The two suggesters would be entitled to an award of \$65 each. This is in line with the present scale for such awards. u

RECOMMENDATIONS: (1) That the suggestion as modified in that the format has been streamlined and will be printed on yellow paper be adopted. u

(2) On approval, that SA Francis X. Fust, Jr., Cincinnati Office, and Miss Georgia Ann Lape, Chicago Office, each be granted an award of \$65 to be handled by the Commendation, Supervisory Approval and Special Action Unit, Administrative Division. These ideas have both been acknowledged by prior letters. u

(3) On approval, this memorandum will serve as authority for the Domestic Intelligence Division to make the necessary manual revisions. u

(4) Memorandum will also serve as the authority for the Forms Management Desk, Training Division, to take appropriate action. u

Appropriate letters attached to SA Francis X. Fust, Jr. and Georgia Ann Lape. u

SUBJECT: PROPOSED CHANGE IN THE
MANUAL OF INSTRUCTIONS
RACIAL MATTERS

PURPOSE:

FILE PROCESSED FOR RELEASE
IN CIVIL DISCOVERY
DATE 9-2-77
SEE BUFILE 62-117433

To recommend approval of attached proposed change in the Manual of Instructions. This change would require that when a field office submits a form FD-397 recommending the inclusion of an individual in the Agitator Index ~~that~~ an up-to-date letterhead memorandum or, where required, an investigative report setting forth a summary of the subject's agitational activities must accompany the form FD-397.^u

PRESENT PRACTICE:

The Agitator Index was established in September of 1967. In the interest of expediency, the field has followed the practice, with Bureau approval, of submitting with the form FD-397 only a resume of the subject's activities on which the recommendation for his inclusion on the Agitator Index is based and submitting the letterhead memorandum or investigative report as soon as possible thereafter. Since the expediency in this matter is dissipated, the submission of the up-to-date letterhead memorandum or investigative report containing more complete information at the same time the FD-397 is submitted is more practicable and desirable.^u

RECOMMENDATION:

ST-103

17 SEP 17 1968

That the attached proposed change in the Manual of Instructions be approved and forwarded to the Training Division for processing.^u

c. An up-to-date letterhead memorandum containing pertinent background information, including arrest record and a good physical description, and a succinct summary of the subject's agitational activities must accompany the form FD-397 when no such letterhead memorandum or an investigative report has been submitted within the past year. Mrs. Virginia Rentschler

Domestic Intelligence Division opposes adoption. It is more practical to have separate forms for these three programs. By having them combined into one format, additional work would be involved on part of Agents handling these matters on part-time basis in determining which items are needed for particular program he is working with at the time. Each form was designed for a specific purpose and combining them would result in confusion on part of field. These forms are prepared separately and maintained separately and would not be feasible to handle as one format. Training Division agrees and recommends idea not be approved. u

SUGGESTION

~~FD 122 AND FD 122-A~~
It is suggested that when current supply of FD-122, FD-122 a and ~~FORM~~ FD-397 is exhausted, these three forms be consolidated into one printed form. (Ten copies of proposed form attached). u

Current practice or rule (Include manual citation as well as facts)

Current practice calls for separate forms in Agitator Index (racial matter) and Security Index and Reserve Index (security matters), and manual provisions regarding submission of each are identical.

Advantages of suggestion and annual savings (include basis for estimate) Consolidation of three forms into one printed form would reduce inventory of forms necessary to include subjects on each above-mentioned index; and, where subject's activities warrant inclusion on both Security and Agitator Index, submission of a form with justification for both Indexes would eliminate an entire agent, stenographic, clerical and SOG supervisory operation. u

Disadvantages of suggestion

None. Involves only minor typographical change in format to be used for next printing when current supplies exhausted. u

(The use by the United States of my suggestion shall not form the basis of a further claim of any nature by me, my heirs, or assigns upon the United States. I understand that I will be considered for any justified award only if my suggestion is adopted within two years after submission.)

SUGGESTION Implementation of field-wide form for quarterly verification of residence and employment of Agitator Index subjects. <i>(old on yellow)</i>				
Form is similar in use to Form FD-154 (Verification of Information on Security Index Cards), and probably could also be printed upon pink paper to facilitate location in file. <i>u</i>				
ALL INFORMATION CONTAINED HEREIN IS UNCLASSIFIED DATE <u>4-23-80</u> BY <u>SP16SK/1W</u>				
Current practice or rule (Include manual citation as well as facts) Verification ordered by supervisor memorandum or routing slip. Results are in memorandum form and not readily flagged in file. <i>u</i>				
Advantages of suggestion and annual savings (include basis for estimate) Use of form will reduce handling in headquarters office, since routing of form is self-explanatory, and can be handled on tickler by clerk or secretary responsible for administration of Agitator Index matters. <i>u</i>				
Form also includes section regarding "Armed and Dangerous" classification, since this type of subject is usually mobile, and is often considered for interview. <i>u</i>				
Savings: Monetary savings are probably minimal in this instance, whereas ease of handling and need for A&D tabbing where applicable are important. Time savings: (See page 2)				
Disadvantages of suggestion None noted. <i>u</i>

I. BACKGROUND

The records of the Jersey City, New Jersey Police Department, reflect that Isaiah Rowley was born January 12, 1944, at Newark, New Jersey. His occupation is Advisor, Project Anti-Recidivism, 746 Grand Street, Jersey City, New Jersey. u

It is publicly known that Project Anti-Recidivism (PAR) is a federally funded program started in 1966 and sponsored by the Jersey City Council of Churches, which has as its purpose the contacting of former prisoners and parolees to help to find them jobs. u

The "Jersey Journal", a daily Hudson County, New Jersey newspaper issue of May 24, 1968, notes that PAR was refunded in the amount of \$191,548.00, \$164,000.00 from the Office of Economic Opportunity (OEO) and the balance from the Jersey City Council of Churches. u

On July 15, 1968, Captain Raymond V. Blaszczak, Fourth Precinct, Jersey City, New Jersey, Police Department, advised that Isaiah Rowley resides at 5 Gardner Avenue, Jersey City, New Jersey. u

II. RESUME OF ACTIVITIES

A source, who is in a position to furnish reliable information advised on April 17, 1968, that Isaiah Rowley is one of the principal leaders of STAND a militant organization located on the 300 block of Pacific Avenue in Jersey City. It is supported by the Jersey City Council of Churches. STAND publishes "STAND", a newspaper of indeterminate publication dates which calls for armed aggression. u

APPENDIXSTUDENT NONVIOLENT COORDINATING COMMITTEE

Literature distributed by the Student Nonviolent Coordinating Committee (SNCC), headquartered at 360-362 Nelson Street, S.W., Atlanta, Georgia, describes itself as not being a membership organization, but rather an agency attempting to stimulate and foster the growth of local protest movements. SNCC was born out of the sit-in movement which erupted across the South beginning on February 1, 1960. A conference at Raleigh, North Carolina, that Spring brought together many of the demonstrating Southern students in a loose network of militant youth which was officially named SNCC in October, 1960.

A source has advised that in May, 1966, Stokely Carmichael was elected National Chairman by the Central Committee. In May, 1967, Carmichael was replaced as Chairman by H. Rap Brown, with Carmichael assuming the position of Recruiter and Organizer for the SNCC. In August, 1967, at the invitation of Fidel Castro, Carmichael participated in the Organization of Latin American Solidarity Conference which was held in Havana, Cuba. Subsequent thereto, Carmichael traveled to Hanoi and other sections of North Vietnam. He returned to the United States in December, 1967, at which time his passport was picked up because of travel to unauthorized countries.

A source advised that when Carmichael was elected Chairman of SNCC, the organization embarked on a program of eliminating Caucasians from its ranks. With the election of H. Rap Brown as Chairman in 1967, it embarked on a worldwide struggle for human rights and to take a firm stand against violations of these rights by the American Government and to strengthen its programs of opposition to the draft and to the United States involvement in Vietnam.

Literature distributed in February, 1968, identifies SNCC as an organization in the revolutionary vanguard. It advocates that to be successful it is necessary to develop a revolutionary ideology and revolutionary program.

On August 13, 1967, while addressing a group in the Watts area of Los Angeles, California, H. Rap Brown said "You better shape up America, or we'll burn you down." Later in February, 1968, in a publicized note Brown wrote, "America, if it takes my death to organize my people to revolt against you and to organize your jails to revolt against you and to organize your children, your God, your poor, your country, and to organize mankind to rejoice in your destruction and ruin, then here's my life."

Black Students State Position

In the following, the Black Student Union, through its president, UW student E. J. Brisker, outlines its position with regard to its recent activities and insistence for a restructuring of university life where Negro students are concerned. It was delivered yesterday to the Faculty Senate and is published here in full.

We, the representatives of the BLACK STUDENT UNION, wish to thank the Faculty Senate for their invitation. We've approached this presentation with a strong sense of the need for change in the present university's educational structure.

Specifically, we would like the support of the Faculty Senate in three key areas. One, in the area of recruitment of non-white students. Two, the development of programs, i.e. remedial and tutorial, that will aid newly recruited students in making the difficult transition to university life. Three, the development of a Black Studies Curriculum which will enable both non-white and white students to learn about the culture and life style of such groups as Afro-American, Mexi-American, and Indian-American peoples.

THE SETTING UP of a Black Studies Curriculum would offer the University an exciting educational challenge, a challenge to set up a course of studies that would attract scholars and philosophers from all over the world.

The precedent for a course of studies that focuses on diverse cultures has already been made. Two examples rush quickly to mind. One, the University of Washington presently has Scandinavian studies; two, the University also has Far Eastern studies.

Amid all the recent "sound and fury" the Black Student Union feels that certain aspects of our demands have been interpreted incorrectly. In a certain sense, the Black Student Unions' linguistic approach was at fault. Several examples come to mind.

One, we use the word "demand" when it was probably better to use the word "suggest". The use of the word demand gave a distorted image of the Black Student Union as a group of fanatic, rabble rousing people. Actually, our group was attempting to offer concrete, positive solutions to the problems that threaten to perpetuate the cancer of racism.

A SECOND example was our use of the words "direct and control". Many sincere white and non-white people interpret the words to mean that we were trying: to take power away from Dr. Odegaard; to destroy the prestige of a great University, and to tell a brilliant and distinguished faculty what to teach and how to teach it. We want to make it crystal clear that while we want to participate vigorously in all aspects of the program, we are not asking for control. Many people have misunderstood this.

~~At this point we must try to clarify our position.~~
One, we recognize that University should and must direct the activities of the University of Washington. Two, we recognize that Dr. Odegaard has made some attempts to work for a more humane University community. Three, we recognize that concerned students, faculty, and administration must come together to find ways to cure racism.

WITH THESE LAST three points in mind, we would like the support of the Faculty Senate in the following demands. One, we ask Faculty Senate support in expanding University efforts to attract and recruit non-white students. In this regard, we would like to set up supportive services in the following areas — orientation, remedial work and tutorial programs.

Two, we ask Faculty Senate support in developing a Black Studies Program that gives **both** white and non-white students the exciting opportunity to study the rich variety of non-white culture. Non-white students need such courses so that they can know more about their past heiritage, so that they can develop the cultural base that is a necessary foundation for interaction with people of other cultures.

White students need such courses so that they will be prepared to interact in positive ways with an eighty per cent non-white world.

KEEPING THE TWO points above in perspective, and realizing that we need the resources and energy of students, faculty and administrators; the BSU asks: 1) that the Faculty Senate pass a resolution supporting our demands and 2) that the idea of a black Studies curriculum be placed on the agenda of the long range planning committee of each department of the various schools and colleges of the University.

Finally, we must tell the Senate about another human problem. The Black Student Union does not have many members. We are full time students and we are trying to help this University change and become a greater University. We find that this has taken an enormous amout of our time. We have been required to attend many faculty and administrative meetings, too many committee meetings, for the good of our studies.

SOME MEMBERS of the Black Student Union want to go to graduate school, but if they make C's they cannot get in. Thus, we ask you to understand our situation; to give us a chance to study while you shoulder some of the burdens of making the necessary changes.

We are worried about our academic futures, but we are sacrificing them in order to help this University grow greater. Our academic problems this term are acute. We ask you to understand.

We are pleased and honored by your invitation and we hope that our presentation will be the start of positive communication and interaction between the BSU and the Faculty Senate.

The May 14, 1968, issue of the "Newark Evening News", on Page 10, contains an article on Dublin as a participant in the Poor People's March to Washington, D.C. The article states he is employed by the Youth Opportunity Council, an antipoverty agency in Jersey City, New Jersey. Dublin states he will stay in Washington for at least two weeks with the poor people marchers. u

A confidential source in a position to furnish reliable information advised May 27, 1968, that Dublin resides at 72 Clinton Avenue, Jersey City, New Jersey, and is employed by the City of Jersey City in the Youth Opportunity Corps and the Redevelopment Agency of Jersey City. u

III. AGITATIONAL ACTIVITIES

A confidential source in a position to furnish reliable information advised on April 17, 1968, that Matthew Dublin is one of the leaders of a militant group in Jersey City called Action Community Team (ACT), who tries to "make a buck", talks Muslim, and acts like a hustler. The people in the community within four blocks of the ACT headquarters feel warmly toward Dublin yet treat him as they would any other hustler. u

The "Newark Evening News" issue of May 14, 1968, describes Dublin as a persistent critic of Jersey City government. It notes that he was a star performer at a Model Cities Council meeting a few weeks before. His objections from the audience forced a resolution to give the neighborhood veto power over any plans. He frequently visits City Hall in Jersey City to tell Mayor Whelan and other city officials there was not enough jobs for the grass roots people. Last fall, his cause was the refunding of Can-Do, Jersey City antipoverty agency. The article notes that the black establishment in Jersey City, the few Negro city officials and top Can-Do officials seem to be wary of the outspoken Dublin. Many white politicians avoid him altogether. The article notes that given a position near a microphone "his strong dramatic voice may receive even more recognition." u

PERSONAL ATTENTION

Reurairtel dated 6/3/68 captioned "Possible Racial
Violence, Major Urban Areas, Racial Matters." u

Referenced airtel indicates there are no persons in
the Kansas City Division who meet the requirements for inclusion
on the Agitator Index. There have been a number of protest-type
demonstrations in the Kansas City territory and, in addition,
following the killing of Martin Luther King violent disturbances
broke out. u

It is difficult to understand at the Bureau, with the
amount of racial activity taking place in the Kansas City
territory, how you can continue to contend that there are no
individuals in your territory who have the propensity for
fomenting disorder. In the disturbances following the death
of Martin Luther King, groups of Negroes congregated and
harassed police, motorists, and others. It is apparent that
these groups must have had a leader of some type. The criteria
for including individuals on the Agitator Index are set forth
in SAC Letter 67-70 dated 11/28/67 and these criteria should be
liberally interpreted in favor of including individuals on the
Agitator Index. u

REC-103

157-7782-258

You should immediately review the circumstances
surrounding the violence that has taken place in the Kansas City
territory and identify the leaders of the rowdy groups and the
demonstrations with a view toward identifying individuals who
should be included on the Agitator Index. Advise the Bureau
of the results of this review at an early date and identify
any individuals whom you are considering for inclusion on the
Agitator Index. u

SUGGESTION MATTER**

Reference is made to the suggestion dated 5/17/68 from Miss Georgia Ann Lape regarding a verification form for use in connection with the Agitator Index. u

Your attention is called to a suggestion dated 3/27/68 from Miss Lape wherein she proposed two forms for use in connection with this program. One of these forms was almost identical with the one submitted on 5/17/68. The first idea was not adopted since the Domestic Intelligence Division felt that, in addition to the form not containing sufficient information concerning the subject, there are only slightly over 300 individuals on the Agitator Index which does not present sufficient problems to justify a form for this purpose. In view of these comments and due to the short period of time which has elapsed since the first submission of this format, your office will not be credited with a suggestion in this instance. Miss Lape should be advised of the reason this action is being taken. u

Re Bureau letter to Albany, 4/23/68, requesting resubmission of certain individuals for inclusion in the Agitator Index by use of form FD-397. u

Enclosed herewith are two copies each of form FD-397 for seven individuals submitted by New Orleans for inclusion in the Agitator Index. u

One of the individuals listed in the enclosed FD-397's [REDACTED] is a new subject being submitted for inclusion in the Agitator Index. u

For information of the Bureau, the New Orleans Division has only received return copies marked "approved" for previous submissions on ISAAC REYNOLDS, JR., JOHN MEREDITH HELM and [REDACTED] u

Delay in handling submission of the FD-397's was occasioned by the fact that agent handling has been used extensively in connection with the case captioned "[REDACTED]", ET AL. AFO OOJ", and other expedite matters. u

Houston in referenced airtel directed the NYO

Dear Miss Penitis:

Your suggestion has been received that the covers of case files on certain individuals be stamped with appropriate initials. I thought you might like to know that the same idea has been considered previously and it was decided the advantages of such a procedure were insufficient to warrant its adoption. u

I appreciate the interest and initiative which prompted you to submit your comments to me in this matter. u

Sincerely yours,

Same idea was considered previously with the difference that it referred to use of "RRI" for Rabble Rouser Index as it was then called. Domestic Intelligence Division observed at that time that no purpose would be served by stamping such initials on file covers. There are at present only 417 individuals on this index. The stamping of "SI" for Security Index on file covers serves a particular purpose since those individuals are subject to detention in time of National emergency. As of now no such provision applies to Agitator Index subjects. Domestic Intelligence Division feels previous comments still valid. Training Division recommended current idea not be adopted. 4

RE: AGITATOR INDEX

If the information on these subjects has not been resubmitted, promptly resubmit on an FD-397. u

Review your Agitator Index for those subjects for whom the required information has not been submitted using an FD-397. Resubmit the information on an FD-397 where necessary. This review must be completed and the information submitted to the Bureau by May 10, 1968. u

NOTE:

A review of the Agitator Index at the Bureau indicates that background information on a number of them has not been submitted on a Form FD-397. The submission of the information on an FD-397 is necessary in order that all the cards are uniform in make-up. Appropriate offices are being instructed to review their Agitator Index and submit the information on an FD-397 on all their subjects by 5/10/68. u
